WebMD Ignite™

Encounter Data Submission Guide
Updated: Feb 17, 2026

Encounter Data Overview
Data submitted in this format are loaded and to the Ignite Data Platform and made available for customer licensed DaaS and Ignite Growth Platform products.

Recommended Date Range – If you are working with WebMD Ignite Professional Services, they will work with you to establish the recommended amount of historical data to include. In general, it is recommended that customers supply the most recent full three (3) fiscal years to current.
NOTE – WebMD Ignite will retain, at maximum, a rolling 63 months of medical encounter data. This minimizes your data footprint at WebMD without sacrificing platform value.

Sensitive Exclusions – Many health systems have business rules that determine what medical events are to be excluded from even Business Associate data shares. These often include sensitive medical treatments and conditions. Some systems also exclude certain patients, like "VIPs", completely. You are encouraged to follow these guidelines when preparing your data to send to WebMD Ignite.

Diagnosis and Procedure Sequencing – Each medical code sent with your encounter data is to be sequenced, to identify which diagnoses and procedures are most important within each medical encounter. This sequence impacts how WebMD Ignite categorizes (separately from your own provided service lines) your encounters into service categories that can be used for both audience creation and campaign response measurement. The sequencing can also impact patient predictive models.

Person Loading

Fully-Mastered Persons: Most data are only meaningful if we can connect them with an addressable person. New person records are first evaluated to determine if they have sufficient data to be fully mastered. Fully mastered persons are connected to all activities (e.g., medical encounters, class attendance) that are associated with that same person.
A fully mastered person requires the record contain First Name, Last Name, Street Address 1, AND Postal Code.

File Format Requirements
> Files are to be UTF-8 encoded
> Delimiters: Pipe (|) delimited or Comma (,) with optional double quote (") qualifiers per field.

Any double-quotes ("), backslash (\) or delimiters characters within any field must be escaped with a backslash, whether or not the field is quote enclosed.

Bad Format	Correct Format
John "A""	"John \"A\""
John "A"	John \"A\"
134 "A" St	"134 \"A\" St"
134 "A" St	134 \"A\" St
Probably a fatfinger\"	"Probably a
Probably a fatfinger\	Probably a
"C\O John A"	"C\\O John A"
C\O John A	C\\O John A

> If a backslash (\) precedes an actual delimiter at any place in a supplied file, that file will fail to load. This is to protect against possible data corruption as the fields after will be ambiguous in their relative position and is most easily avoided by always quote-qualifying fields.
> If data in the entire field cannot be provided, leave it blank (no characters in the field).
> First row contains headers. These are case sensitive, so please follow the below header names exactly.
> No page breaks, footers, or data summaries / totals.

File Naming Conventions
{Source}_{File Type}_{YYYYMMDD-YYYYMMDD}

Examples:

EPIC_DIAGNOSIS_20140801–20150731

EPIC_VISITS_20140801–20150731

EPIC_FINANCIAL_20170401–20180331

Note: File name can be in either upper or lowercase; file extension is not required.

File Layout Requirements

File Types Included: Custom Activity

Required: If data is not provided in any field that is listed as required, WebMD Ignite will reject the entire record.

Standard Values Required: We remove any record with a value not in the <u>standard value list</u>.

Table 1. Demographic File

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Person ID	person_id	Typically a person's medical record number. Person ID is unique and should not be shared as this will result in merging distinct individuals.	E1401321			Required Unique ID used to match individuals to their encounters in the visit file.
2	First Name	first_name	An individual's first name.	Mary	Y		Required for person mastering and personalized communications.
3	Middle Name	middle_name	An individual's middle name. Middle initial is acceptable.	Ann			Useful for person mastering and in some communications depending on salutation.
4	Last Name	last_name	An individual's last name, including any hyphenation.	Smith	Y		Required for person mastering and personalized communications.
5	Street Address 1	street_address_1	The first line of the individual's home address, not including city, state, zip.	1234 Main St.	Y		Required to correctly link individuals at a household/family level both within the same system and between disparate systems.
6	Street Address 2	street_address_2	The second line of the individual's home address, not including city, state, zip.	Apt. F12			Required to correctly link individuals at a household/family level both within the same system and between disparate systems.
7	City	city	The city of an individual's home address.	Madison			Required to correctly link individuals at a household/family level both within the same system and between disparate systems.
8	State / Province	state_province	Standardized state or provice. For US addresses, this should be the standard 2–character abbreviation.	WI	Y		Required to correctly link individuals at a household/family level both within the same system and between disparate systems.
9	Postal Code	postal_code	The full postal (ZIP for US addresses) code, including ZIP+4 if present.	53717–1234	Y		Required to correctly link individuals at a household/family level both within the same system and between disparate systems.
10	Prefix	prefix	The prefix to someone's name when addressing them on a piece of direct mail.	Ms			Important for all communication channels depending on salutation structure.
11	Suffix	suffix	The generational suffix for a person.	Jr			Important for keeping two individuals with the same name in the same family separate and/or confirming two person records should be matched between disparate systems.
12	Sex Assigned at Birth	sex (formerly gender)	Indicates the person's sex assigned at birth.	F		Y	Critical for predictive models. **Note**: The values provided here are what are used by the "Gender" Audience Insights filter.
13	Birth Date	birth_date	The person's date of birth. Date format must be YYYY-MM-DD.	1973–02–25	Y		Required for person mastering, campaign execution and predictive models.

14	Marital Status Code	marital_status_code	The code representing the marital status of a person.	S		Y	Useful for campaign execution and predictive models.
15	Marital Status Description	marital_status_desc	The marital status of a person.	Single		Y	Useful for campaign execution and predictive models.
16	Race Code	race_code	The code representing a person's race.	M		Y	Useful for campaign execution.
17	Race Description	race_desc	A person's race.	Multiracial		Y	Useful for some campaigns and messaging.
18	Home Phone Number	home_phone	The home phone number of a person.	6088317880			Useful for phone communications.
19	Mobile Phone Number	mobile_phone	A person's mobile phone number.	6088317880			Useful for SMS communication. Useful for communication strategy.
20	Primary Email Address	primary_email	A person's primary email address.	Mary@gmail.com			Required for email campaigns. **Note**: Email addresses that are not of the basic structure of xxx@yyyy (or <string>@<string>) will not be loaded. This is done to prevent invalid email addresses from overwriting valid emails and to reduce failed email deliveries. If the primary email address is blank or invalid, the secondary email address is evaluated and will be loaded as primary (if valid).
21	Secondary Email Address	secondary_email	A person's secondary email address.	Mary@gmail.com			Required for email campaigns. **Note**: Email addresses that are not of the basic structure of xxx@yyyy (or <string>@<string>) will not be loaded. This is done to prevent invalid email addresses from overwriting valid emails and to reduce failed email deliveries. If the primary email address is blank or invalid, the secondary email address is evaluated and will be loaded as primary (if valid).
22	Social Security Number	social_security_number	A person's Social Security Number (SSN).	478000000			Deprecated for use in record matching. Last 4 is provided back in DaaS payloads (for customers licensing that service).
23	Employer Name	employer_name	A person's employer.	ABC Health			Useful for campaign execution targeting employees of certain companies.
24	Deceased Date	deceased_date	The date the person expired. Date format must be YYYY-MM-DD.	1973-02-25			Important for campaign execution to ensure known deceased persons are not communicated to.
25	Global Solicitable Status	global_solicitable_status_flag	Patient's global (all channel) solicitable status. Y - Solicitable N - Not Solicitable Blank = Y 'Y' value overrides the DNS value previously supplied. A null value is recommended if the solicitable status is unknown.	N		Y	Important to avoid contacting people who have previously requested not to receive any communications.
26	Direct Mail Solicitable Status (DNS, etc.)	dm_solicitable_status_flag	Patient's direct mail solicitable status. Y - Solicitable N - Not Solicitable Blank = Y, unless this person has been identified as not solicitable previously 'Y' value overrides the DNS value previously supplied. A null value is recommended if the solicitable status is unknown.	N		Y	Important to avoid contacting people who have previously requested not to receive communications via direct mail.

#	Attribute	Field Name	Description	Value 1		Value 2	Details
27	Email Solicitable Status (DNS, etc.)	email_solicitable_status_flag	Patient's email solicitable status. Y - Solicitable N - Not Solicitable Blank = Y, unless this person has been identified as not solicitable previously 'Y' value overrides the DNS value previously supplied. A null value is recommended if the solicitable status is unknown.	N		Y	Important to avoid contacting people who have previously requested not to receive communications via email.
28	Phone Solicitable Status (DNS, etc.)	phone_solicitable_status_flag	Patient's phone solicitable status. Y - Solicitable N - Not Solicitable Blank = Y, unless this person has been identified as not solicitable previously 'Y' value overrides the DNS value previously supplied. A null value is recommended if the solicitable status is unknown.	N		Y	Important to avoid contacting people who have previously requested not to receive communications via a phone call.
29	Fax Solicitable Status (DNS, etc.)	fax_solicitable_status_flag	Patient's fax solicitable status. Y - Solicitable N - Not Solicitable Blank = Y, unless this person has been identified as not solicitable previously 'Y' value overrides the DNS value previously supplied. A null value is recommended if the solicitable status is unknown.	N		Y	Important to avoid contacting people who have previously requested not to receive communications via a fax.
30	Gender Identity Code	gender_identity_code	Code indicating a patient's gender identity.	Q			Useful for personalization. **Note**: This attribute uses a client-defined dictionary. This means that the codes and descriptions provided in the data will determine the values that end users see in the application. The "Gender Identity Description" that was most recently provided in this data will determine the values users see when using the "Gender Identity" Audience Insights filter.
31	Gender Identity Description	gender_identity_desc	Description for the gender identity.	Genderqueer			Useful for personalization. See Gender Identity Code for more information. **Note**: The values provided here are what users will see when using the "Gender Identity" Audience Insights filter.
32	Preferred Language	preferred_language	Language patient prefers to be communicated in.	E1		Y	Useful for personalization, especially alternate-language or multilingual communications. **Note**: The values provided here are what users will see when using the "Preferred Language" Audience Insights filter.

Table 1.1 Standard Data Values – Demographic File

Attribute	Value	Value Description	Details

Sex Assigned at Birth	M	Male					
	F	Female					
	NB	Intersex (formerly nonbinary)					
	U	Unknown					
Preferred Language	A4	Arabic					
	A5	Armenian					
	B3	Bengali					
	S2	Bosnian					
	C1	Chinese (Simplified)					
	6	Chinese (Traditional)					
	E1	English					
	F1	Farsi					
	F3	French					
	G2	German					
	11	Haitian Creole					
	H3	Hindi					
	L1	Hmong					
	I3	Italian					
	J1	Japanese					
	K2	Khmer					
	K4	Korean					
	N1	Nepali					
	P2	Polish					
	P3	Portuguese					
	R2	Russian					
	S6	Somali					
	S8	Spanish					
	S9	Swahili					
	T1	Tagalog					
	V1	Vietnamese					
	98	Other					
	U	Unknown					
Marital Status	M	Married					
	U	Unknown					
	S	Single					
	D	Divorced					
	X	Legally Separated					
	O	Other					
	G	Significant Other					
	W	Widow/Widower					
Race	A	Asian					
	B	Black or African					
	E	Eastern Indian					
	H	Hispanic or Latino					
	I	American Indian or					
	M	Multiracial					
	N	Native Hawaiian or					

	O	Other					
	U	Unknown					
	W	White or Caucasian					
Global Solicitable Status	Y	Yes Solicitable – will override the previous value unless an N was sent via Solicitable List.	If global and channel are null, channel is set to solicitable, unless a previous DNS value was received.				
	N	Not Solicitable	If global is provided and channel is null, the channel DNS inherits the global value.				
	Null	A null sets the person to solicitable.	If global is provided and channel is provided, the non-solicitable value (N) wins regardless of which field is provided it.				
Direct Mail Solicitable Status	Y	Yes Solicitable – will override the previous value unless an N was sent via Solicitable List.					
	N	Not Solicitable					
	Null	A null sets the	Unless a previous DNS value was received				
Email Solicitable Status	Y	Yes Solicitable – will override the previous value unless an N was sent via Solicitable List.					
	N	Not Solicitable					
	Null	A null sets the	Unless a previous DNS value was received				
Phone Solicitable Status	Y	Yes Solicitable – will override the previous value unless an N was sent via Solicitable List.					
	N	Not Solicitable					
	Null	A null sets the	Unless a previous DNS value was received				
Fax Solicitable Status	Y	Yes Solicitable – will override the previous value unless an N was sent via Solicitable List.					
	N	Not Solicitable					
	Null	A null sets the	Unless a previous DNS value was received				

Table 2. Visit File

Notes:

Visit ID should be unique. Multiple records with the same Visit ID will be rejected

Historic Date Ranges:

- Clinic/Physician Office - Extract run on Date of Service
- Hospital - Extract run on restricted by date based on Date of Service or on Discharge Date

Data to be excluded

- Exclude Non-visits, such as Left Without Being Seen and No-Show Visits
- Exclude Contract visits, where charges post to a business / employer account (for physical, drug screenings, etc)

Service Line & Sub-Service line

Columns 31–34 require headers

Provided data for service line and sub-service lines is not currently available for customer use

Your provided data will be stored with intent to later make available once supported in the platform

Service Line & Sub-Service line grouping must be consistent across all medical data feeds from your organization

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Person ID	person_id	Typically a person's medical record number. The Visit file is linked to the Demographics file via the Person ID. Person ID must not be shared between distinct individuals.	E14013212943	Y		Required to link person demographics to encounters/visits.
2	Visit ID	visit_id	Uniquely identifies a single visit at a single facility. May be a concatenation of several other fields (date, location, person ID). Visit ID must not be shared between distinct encounters.	123454321	Y		Required for all visits. Used to link related files (visit, diagnosis, etc.) and match against previously-supplied records.
3	Place of Service Code	place_of_service_code	This is the code representing the place of service as classified by CMS	11		Y	Important for reporting and correct measurement of the data. Useful for matching and mastering facility across data sources.
4	Place of Service Description	place_of_service_desc	This is the description representing the place of service as classified by CMS	Office		Y	Important for reporting and correct measurement of the data. Useful for matching and mastering facility across data sources.
5	Facility Code	facility_code	The code representing a facility where the visit took place.	SH10			Useful for most campaign execution and reporting.
6	Facility Name	facility_name	Facility name.	Sacred Heart Hospital			Useful for most campaign execution and reporting.
7	Sub-Facility code	sub_facility_code	The code representing a sub-facility.	SH10_091			Useful in some campaign execution and reporting.
8	Sub- Facility description	sub_facility_desc	Sub facility is a more granular sub-facility within a larger facility (typically a hospital). These are unique to every client and system and often contain values like 4th floor west, etc.	4West			Useful in some campaign execution and reporting.
9	Admit Date	admit_date	Date of admission, for inpatient encounters only. Date format must be YYYY-MM-DD.	2015-12-22			Required for campaign reporting. Critical for campaign execution.
10	Discharge Date	discharge_date	Date of discharge, for inpatient encounters only. Date format must be YYYY-MM-DD.	2015-12-22			Required for campaign reporting. Critical for campaign execution.
11	Date of Service	date_of_service	Date of service, for all non-inpatient encounters. Date format must be YYYY-MM-DD.	2015-12-22			Critical for tracking results of campaigns as we need to know if a visit occurred after a mailing.
12	Patient Class Code	patient_class_code	Categorization code of visit as Inpatient, Outpatient or Emergency.	I		Y	Important for campaign execution and reporting.
13	Patient Class Description	patient_class_desc	Categorization description of visit as Inpatient, Outpatient or Emergency.	Inpatient		Y	Important for campaign execution and reporting.
14	Admit Type Code	admit_type_code	The code representing an admit type for inpatient encounters.	1		Y	Useful for some campaign execution.
15	Admit Type Description	admit_type_desc	For hospital stays, admit type codes are used to classify how the patient came to the hospital.	Emergency		Y	Useful for some campaign execution.
16	Admit Source Code	admit_source_code	The code representing the source of an admission for an inpatient visit.	4		Y	Useful for some marketing campaigns.

17	Admit Source Description	admit_source_desc	Identifies the source of an admission for an inpatient visit.	Transfer from hospital (Different Facility)		Y	Useful for some marketing campaigns.
18	Discharge Disposition Code	discharge_disposition_code	The code representing a discharge disposition.	4		Y	Useful for reporting.
19	Discharge Disposition Description	discharge_disposition_desc	Indicates how and where a patient was discharged.	Discharged / Transferred to an Intermediate Care Facility (ICF)		Y	Useful for reporting.
20	MSDRG	msdrg_code	MS-DRG assigned to inpatient encounter. It is expected that all inpatient stays (even in the initial 3-yr look back) be coded under the MS standard. It is paramount that standard be followed as there are numerous DRG standards (AP-DRG, APR-DRG, R-DRG, etc.) that are generally indistinguishable but have radically different meanings.	019		Y	Required for WebMD Ignite service category assignment. Critical for some campaign execution and reporting. Important for some predictive modeling. **Note:** Values must all be 3-character (i.e., left 0-padded).
21	Readmit	readmit	Inpatient readmission flag.	Y		Y	Useful for quality measures, campaign outreach and potential comparison across quality activities across products
22	DNR	dnr	Do not resuscitate flag.	N		Y	Useful for quality measures, campaign outreach and potential comparison across quality activities across products
23	Height	height	A person's height. Must be in inches.	68			Useful for predictive models.
24	Weight	weight	A person's weight. Must be in pounds.	150			Useful for predictive models.
25	Financial Class Code	financial_class_code	The code representing a financial class.	M		Y	Critical for reporting and campaign execution.
26	Financial Class Description	financial_class_desc	Indicates financial class (major payor grouping) responsible for the encounter.	Medicare		Y	Critical for reporting and campaign execution.
27	Guarantor First Name	guarantor_first_name	The first name of the guarantor on the account.	Bob			Useful for population and outreach communications to caregivers.
28	Guarantor Last Name	guarantor_last_name	The last name of the guarantor on the account.	Smith			Useful for population and outreach communications to caregivers.
29	Guarantor Relationship to Patient Code	guar_relationship-code	The code representing a guarantor's relationship to the patient.	7		Y	Useful for population and outreach communications to caregivers.
30	Guarantor Relationship to Patient Description	guar_relationship-desc	Indicates the guarantor's relationship to the patient.	Self		Y	Useful for population and outreach communications to caregivers.
31	Service Line Code	service_line_code	Service line code.	ONCO			Important for campaign execution and reporting.
32	Service Line Description	service_line_desc	Your assigned service line for the encounter.	Oncology			Important for campaign execution and reporting.
33	Sub Service Line Code	sub_service_line_code	Sub service line code.	ONC-BC			Important for campaign execution and reporting.
34	Sub Service Line Description	sub_service_line_desc	Your assigned sub-service line for the encounter.	Breast Cancer			Important for campaign execution and reporting.

Table 2.1 Standard Data Values – Visit File

Attribute	Value	Value Description	Details
Patient Class	I	Inpatient	
	O	Outpatient	
	E	Emergency	
Place of Service	01	Pharmacy	A facility or location where drugs and other medically related items and services are sold, dispensed, or otherwise provided directly to patients. (Effective October 1, 2003).

02	Telehealth	The location where health services and health related services are provided or received, through a telecommunication system. (Effective January 1, 2017)
03	School	A facility whose primary purpose is education. (Effective January 1, 2003)
04	Homeless Shelter	A facility or location whose primary purpose is to provide temporary housing to homeless individuals (e.g., emergency shelters, individual or family shelters). (Effective January 1, 2003)
05	Indian Health Service Free-standing Facility	A facility or location, owned and operated by the Indian Health Service, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to American Indians and Alaska Natives who do not require hospitalization. (Effective January 1, 2003)
06	Indian Health Service Provider-based Facility	A facility or location, owned and operated by the Indian Health Service, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services rendered by, or under the supervision of, physicians to American Indians and Alaska Natives admitted as inpatients or outpatients. (Effective January 1, 2003)
07	Tribal 638 Free-standing Facility	A facility or location owned and operated by a federally recognized American Indian or Alaska Native tribe or tribal organization under a 638 agreement, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to tribal members who do not require hospitalization. (Effective January 1, 2003)
08	Tribal 638 Provider-based Facility	A facility or location owned and operated by a federally recognized American Indian or Alaska Native tribe or tribal organization under a 638 agreement, which provides diagnostic, therapeutic (surgical and non-surgical), and rehabilitation services to tribal members admitted as inpatients or outpatients. (Effective January 1, 2003)
09	Prison/ Correctional Facility	A prison, jail, reformatory, work farm, detention center, or any other similar facility maintained by either Federal, State or local authorities for the purpose of confinement or rehabilitation of adult or juvenile criminal offenders. (Effective July 1, 2006)
10	Telehealth Provided in Patient's Home	The location where health services and health related services are provided or received, through telecommunication technology. Patient is located in their home (which is a location other than a hospital or other facility where the patient receives care in a private residence) when receiving health services or health related services through telecommunication technology.
11	Office	Location, other than a hospital, skilled nursing facility (SNF), military treatment facility, community health center, State or local public health clinic, or intermediate care facility (ICF), where the health professional routinely provides health examinations, diagnosis, and treatment of illness or injury on an ambulatory basis.
12	Home	Location, other than a hospital or other facility, where the patient receives care in a private residence.
13	Assisted Living Facility	Congregate residential facility with self-contained living units providing assessment of each resident's needs and on-site support 24 hours a day, 7 days a week, with the capacity to deliver or arrange for services including some health care and other services. (Effective October 1, 2003)
14	Group Home	A residence, with shared living areas, where clients receive supervision and other services such as social and/or behavioral services, custodial service, and minimal services (e.g., medication administration). (Effective October 1, 2003)
15	Mobile Unit	A facility/unit that moves from place-to-place equipped to provide preventive, screening, diagnostic, and/or treatment services. (Effective January 1, 2003)
16	Temporary Lodging	A short term accommodation such as a hotel, camp ground, hostel, cruise ship or resort where the patient receives care, and which is not identified by any other POS code. (Effective January 1, 2008)
17	Walk-in Retail Health Clinic	A walk-in health clinic, other than an office, urgent care facility, pharmacy or independent clinic and not described by any other Place of Service code, that is located within a retail operation and provides, on an ambulatory basis, preventive and primary care services. (This code is available for use immediately with a final effective date of May 1, 2010)
18	Place of Employment-Worksite	A location, not described by any other POS code, owned or operated by a public or private entity where the patient is employed, and where a health professional provides on-going or episodic occupational medical, therapeutic or rehabilitative services to the individual. (This code is available for use effective January 1, 2013 but no later than May 1, 2013)
19	Off Campus-Outpatient Hospital	A portion of an off-campus hospital provider based department which provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization. (Effective January 1, 2016)
20	Urgent Care Facility	Location, distinct from a hospital emergency room, an office, or a clinic, whose purpose is to diagnose and treat illness or injury for unscheduled, ambulatory patients seeking immediate medical attention. (Effective January 1, 2003)
21	Inpatient Hospital	A facility, other than psychiatric, which primarily provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services by, or under, the supervision of physicians to patients admitted for a variety of medical conditions.
22	On Campus-Outpatient Hospital	A portion of a hospital's main campus which provides diagnostic, therapeutic (both surgical and nonsurgical), and rehabilitation services to sick or injured persons who do not require hospitalization or institutionalization. (Description change effective January 1, 2016)
23	Emergency Room – Hospital	A portion of a hospital where emergency diagnosis and treatment of illness or injury is provided.
24	Ambulatory Surgical Center	A freestanding facility, other than a physician's office, where surgical and diagnostic services are provided on an ambulatory basis.
25	Birthing Center	A facility, other than a hospital's maternity facilities or a physician's office, which provides a setting for labor, delivery, and immediate postpartum care as well as immediate care of newborn infants.
26	Military Treatment Facility	A medical facility operated by one or more of the Uniformed Services. Military Treatment Facility (MTF) also refers to certain former U. S. Public Health Service (USPHS) facilities now designated as Uniformed Service Treatment Facilities (USTF).

27	Outreach Site / Street	A non-permanent location on the street or found environment, not described by any other POS code, where health professionals provide preventive, screening, diagnostic, and/or treatment services to unsheltered homeless individuals.
31	Skilled Nursing Facility	A facility which primarily provides inpatient skilled nursing care and related services to patients who require medical, nursing, or rehabilitative services but does not provide the level of care or treatment available in a hospital.
32	Nursing Facility	A facility which primarily provides to residents skilled nursing care and related services for the rehabilitation of injured, disabled, or sick persons, or, on a regular basis, health-related care services above the level of custodial care to other than individuals with intellectual disabilities.
33	Custodial Care Facility	A facility which provides room, board and other personal assistance services, generally on a long-term basis, and which does not include a medical component.
34	Hospice	A facility, other than a patient's home, in which palliative and supportive care for terminally ill patients and their families are provided.
41	Ambulance - Land	A land vehicle specifically designed, equipped and staffed for lifesaving and transporting the sick or injured.
42	Ambulance - Air or Water	An air or water vehicle specifically designed, equipped and staffed for lifesaving and transporting the sick or injured.
49	Independent Clinic	A location, not part of a hospital and not described by any other Place of Service code, that is organized and operated to provide preventive, diagnostic, therapeutic, rehabilitative, or palliative services to outpatients only. (Effective October 1, 2003)
50	Federally Qualified Health Center	A facility located in a medically underserved area that provides Medicare beneficiaries preventive primary medical care under the general direction of a physician.
51	Inpatient Psychiatric Facility	A facility that provides inpatient psychiatric services for the diagnosis and treatment of mental illness on a 24-hour basis, by or under the supervision of a physician.
52	Psychiatric Facility-Partial Hospitalization	A facility for the diagnosis and treatment of mental illness that provides a planned therapeutic program for patients who do not require full time hospitalization, but who need broader programs than are possible from outpatient visits to a hospital-based or hospital-affiliated facility.
53	Community Mental Health Center	A facility that provides the following services: outpatient services, including specialized outpatient services for children, the elderly, individuals who are chronically ill, and residents of the CMHC's mental health services area who have been discharged from inpatient treatment at a mental health facility; 24 hour a day emergency care services; day treatment, other partial hospitalization services, or psychosocial rehabilitation services; screening for patients being considered for admission to State mental health facilities to determine the appropriateness of such admission; and consultation and education services.
54	Intermediate Care Facility/ Individuals with Intellectual Disabilities	A facility which primarily provides health-related care and services above the level of custodial care to individuals but does not provide the level of care or treatment available in a hospital or SNF.
55	Residential Substance Abuse Treatment Facility	A facility which provides treatment for substance (alcohol and drug) abuse to live-in residents who do not require acute medical care. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, psychological testing, and room and board.
56	Psychiatric Residential Treatment Center	A facility or distinct part of a facility for psychiatric care which provides a total 24-hour therapeutically planned and professionally staffed group living and learning environment.
57	Non-residential Substance Abuse Treatment Facility	A location which provides treatment for substance (alcohol and drug) abuse on an ambulatory basis. Services include individual and group therapy and counseling, family counseling, laboratory tests, drugs and supplies, and psychological testing. (Effective October 1, 2003)
58	Non-residential Opioid Treatment Facility	A location that provides treatment for opioid use disorder on an ambulatory basis. Services include methadone and other forms of Medication Assisted Treatment (MAT).
60	Mass Immunization Center	A location where providers administer pneumococcal pneumonia and influenza virus vaccinations and submit these services as electronic media claims, paper claims, or using the roster billing method. This generally takes place in a mass immunization setting, such as a public health center, pharmacy, or mall but may include a physician office setting.
61	Comprehensive Inpatient Rehabilitation Facility	A facility that provides comprehensive rehabilitation services under the supervision of a physician to inpatients with physical disabilities. Services include physical therapy, occupational therapy, speech pathology, social or psychological services, and orthotics and prosthetics services.
62	Comprehensive Outpatient Rehabilitation Facility	A facility that provides comprehensive rehabilitation services under the supervision of a physician to outpatients with physical disabilities. Services include physical therapy, occupational therapy, and speech pathology services.
65	End-Stage Renal Disease Treatment Facility	A facility other than a hospital, which provides dialysis treatment, maintenance, and/or training to patients or caregivers on an ambulatory or home-care basis.

	66	Programs of All-Inclusive Care for the Elderly (PACE) Center	A facility or location providing comprehensive medical and social services as part of the Programs of All-Inclusive Care for the Elderly (PACE). This includes, but is not limited to, primary care; social work services; restorative therapies, including physical and occupational therapy; personal care and supportive services; nutritional counseling; recreational therapy; and meals when the individual is enrolled in PACE.
	71	Public Health Clinic	A facility maintained by either State or local health departments that provides ambulatory primary medical care under the general direction of a physician.
	72	Rural Health Clinic	A certified facility which is located in a rural medically underserved area that provides ambulatory primary medical care under the general direction of a physician.
	81	Independent Laboratory	A laboratory certified to perform diagnostic and/or clinical tests independent of an institution or a physician's office.
	99	Other Place of Service	Other place of service not identified above.
Admit Type	1	Emergency	The patient required immediate medical intervention as a result of severe, life threatening, or potentially disabling conditions. Generally, the patient was admitted through the emergency room.
	2	Urgent	The patient required immediate attention for the care and treatment of a physical or mental disorder. Generally, the patient was admitted to the first available and suitable accommodation.
	3	Elective	The patient's condition permitted adequate time to schedule the availability of suitable accommodations.
	4	Newborn	Newborn
	5	Trauma Center	Visits to a trauma center/hospital as licensed or designated by the State or local government authority authorized to do so, or as verified by the American College of Surgeons and involving a trauma activation.
	9	Unknown/Information not available	Unknown - Information not available.
Admit Source	1	Non-Health Care Facility (Physician Referral)	The patient was admitted to this facility upon an order of a physician.
	2	Clinic referral	The patient was admitted upon the recommendation of this facility's clinic physician.
	4	Transfer from hospital (Different Facility)	The patient was admitted to this facility as a hospital transfer from an acute care facility where he or she was an inpatient.
	5	Transfer from a skilled nursing facility (SNF) or Intermediate Care Facility (ICF)	The patient was admitted to this facility as a transfer from a SNF or ICF where he or she was a resident.
	6	Transfer from another health care facility	The patient was admitted to this facility as a transfer from another type of health care facility not defined elsewhere in this code list where he or she was an inpatient.
	8	Court/law enforcement	The patient was admitted upon the direction of a court of law or upon the request of a law enforcement agency's representative.
	7	Emergency Room (ER)	The patient was admitted to this facility after receiving services in this facility's emergency room department.
	9	Information not available	The means by which the patient was admitted is not known.
	D	Transfer from hospital inpatient in the same facility resulting in a separate claim to the payer	The patient was admitted to this facility as a transfer from hospital inpatient within this facility resulting in a separate claim to the payer.
	E	Transfer from Ambulatory Surgical Center	The patient was admitted to this facility as a transfer from an ambulatory surgery center.
	F	Transfer from Hospice and is under a Hospice Plan of Care or Enrolled in a Hospice Program	The patient was admitted to this facility as a transfer from a hospice.

	Code	Description	Notes
	N5	Born Inside this Hospital	
	N6	Born Outside of This Hospital	
Discharge Disposition	1 01	Discharge to Home or Self Care (Routine Discharge)	This code includes discharge to home; jail or law enforcement; home on oxygen if durable medical equipment (DME) only; any other DME only; group home, foster care, and other residential care arrangements; outpatient programs, such as partial hospitalization or outpatient chemical dependency programs; assisted living facilities that are not state-designated.
	2 02	Discharged/Transferred to a Short Term General Hospital for Inpatient Care	This patient discharge status code should be used when the patient is discharged or transferred to a short-term acute care hospital. Discharges or transfers to long-term care hospitals (LTCHs) should be coded with Patient discharge status Code 63.
	3 03	Discharged/Transferred to a Skilled Nursing Facility (SNF) with Medicare Certification in Anticipation of Skilled Care	This code indicates that the patient is discharged/transferred to a Medicare-certified nursing facility in anticipation of skilled care.
	4 04	Discharged/Transferred to an Intermediate Care Facility (ICF)	Patient discharge status code 04 is typically defined at the state level for specifically designated intermediate care facilities. It is also used: To designate patients that are discharged/transferred to a nursing facility with neither Medicare nor Medicaid certification, or for discharges/transfers to state designated Assisted Living Facilities.
	5 05	Discharged/Transferred to a Designated Cancer center or children's Hospital	Transfers to non-designated cancer hospitals should use Code 02. A list of (National Cancer Institute) Designated Cancer Centers can be found at http://cancercenters.cancer.gov/cancer_centers/cancer-centers-names.html
	6 06	Discharged/Transferred to Home Under Care of Organized Home Health Service Organization in Anticipation of Covered Skilled Care	This code should be reported when a patient is: Discharged/transferred to home with a written plan of care for home care services (tailored to the patient's medical needs) -- whether home attendant, nursing aides, certified attendants, etc.; Discharged/transferred to a foster care facility with home care; and Discharged to home under a home health agency with durable medical equipment (DME). This code should not be used for home health services provided by a: DME supplier or Home IV provider for home IV services.
	7 07	Left Against Medical Advice or Discontinued Care	when a patient leaves against medical advice or the care is discontinued. According to the NUBC, discontinued services may include: • Patients who leave before triage, or are triaged and leave without being seen by a physician; or • Patients who move without notice, and the home health agency is unable to complete the plan of care.
	9 09	Admitted as an Inpatient to this Hospital	This code is for use only on Medicare outpatient claims, and it applies only to those Medicare outpatient services that begin greater than three days prior to an admission.
	20	Expired	Only used if patient died. Also should include 40, 41, 42 (Hospice standards)
	21	Discharged/Transferred to Court/Law Enforcement	
	30	Still Patient or Expected to Return for Outpatient Services	The patient is still within the same facility and is typically used when billing for leave of absence days or interim bills. It can be used for both inpatient or outpatient claims. It is used for inpatient claims when billing for leave of absence days or interim billing (i.e., the length of stay is longer than 60 days). On outpatient claims, the primary method to identify that the patient is still receiving care is the bill type frequency code.
	40	Expired at home (Hospice claims only)	***Used only on Medicare and TRICARE claims for hospice care.***
	41	Expired in a medical facility (hospital, SNF, Intermediate Care Facility, or free standing hospice)	For hospice use only

42	Expired - place unknown	This is used only on Medicare and TRICARE claims for Hospice only
43	Discharged/Transferred to a Federal Hospital	This code applies to discharges and transfers to a government operated health care facility including: Department of Defense hospitals; Veterans Administration hospitals; Veterans Administration nursing facilities.
50	Discharged/Transferred to Hospice (home)	Alternative setting that is the patient's home such as nursing facility, and will receive in-home hospice services
51	Discharged/Transferred to Hospice medical facility	Patient went to an IP facility that is qualified and the patient is to receive the general IP hospice level of care or hospice respite care. Used also if the patient is discharged from an IPacute care hospital to remain in hospital under hospice care
61	Discharged/Transferred to a Hospital-based Medicare Approved Swing Bed	This code is used for reporting patients discharged/transferred to a SNF level of care within the hospital's approved swing bed arrangement. When a patient is discharged from an acute hospital to a Critical Access Hospital (CAH) swing bed, use patient discharge status code 61. Swing beds are not part of the post acute care transfer policy.
62	Discharged/Transferred to an Inpatient Rehabilitation Facility Including Distinct Part Units of a Hospital	Inpatient rehabilitation facilities (or designated units) are those facilities that meet a specific requirement that 75% of their patients require intensive rehabilitative services for the treatment of certain medical conditions. This code should be used when a patient is transferred to a facility or designated unit that meets this qualification.
63	Discharged/Transferred to Long Term Care Hospitals (LTCHs)	This code is for hospitals that meet the Medicare criteria for LTCH certification. LTCHs are facilities that provide acute inpatient care with an average length of stay of 25 days or greater. This code should be used when transferring a patient to a LTCH. If providers are not sure whether a facility is a LTCH or a short-term care hospital, they should contact the facility to verify their facility type before assigning a patient discharge status code.
64	Discharged/Transferred to a Nursing Facility Certified Under Medicaid but not Certified Under Medicare	Nursing facilities may elect to certify only a portion of their beds under Medicare, and some nursing facilities choose to certify all of their beds under Medicare. Still others elect not to certify any of their beds under Medicare. When a patient is transferred to a nursing facility that has no Medicare certified beds, this code should be used. If any beds at the facility are Medicare certified, then the provider should use either patient discharge status code 03 or 04, depending on: The level of care the patient is receiving; and Whether the bed is Medicare certified or not.
65	Discharged/Transferred to a Psychiatric Hospital or Psychiatric Distinct Part Unit of a Hospital	This code should be used when a patient is transferred to an inpatient psychiatric unit or inpatient psychiatric designated unit.
66	Discharged/Transferred to a Critical Access Hospital (CAH)	Patient discharge status Code 66 is used to identify a transfer to a critical access hospital (CAH) for inpatient care. Providers will need to establish a process for identifying whether a hospital is paid under the PPS or whether the facility is designated as a CAH. Note: Discharges or transfers to a CAH swing bed should still be coded with
69	Discharged/Transferred to a Designated Disaster Alternative Care Site	This code should be used when a patient is discharged/transferred to a designated disaster alternative care site.
70	Discharged/Transferred to another Type of Health Care Institution not Defined Elsewhere in this Code List	This code should be used when a patient is discharged/transferred to an entity outside of this Code list.
81	Discharged to Home or Self-care with a Planned Acute Care Hospital Inpatient Readmission.	

82	Discharged/transferred to a short term general hospital for inpatient care with a planned acute care hospital inpatient readmission.	
83	Discharged/transferred to a skilled nursing facility (SNF) with Medicare certification with a planned acute care hospital inpatient readmission.	
84	Discharged/transferred to a facility that provides custodial or supportive care with a planned acute care hospital inpatient readmission.	
85	Discharged/transferred to a Designated Cancer Center or Children's Hospital with a planned acute care Hospital inpatient readmission.	
86	Discharged/transferred to home under care of organized home health service organization with a planned acute care Hospital inpatient readmission.	
87	Discharged/transferred to court/law enforcement with a planned acute care Hospital inpatient readmission.	
88	Discharged/transferred to a federal health care facility with a planned acute care Hospital inpatient readmission.	
89	Discharged/transferred to a Hospital-based Medicare approved swing bed with a planned acute care Hospital inpatient readmission.	

	90	Discharged/transferred to an inpatient rehabilitation facility (IRF) including rehabilitation distinct part units of a Hospital with a planned acute care Hospital inpatient readmission.	
	91	Discharged/transferred to a Medicare certified long term care Hospital (LTCH) with a planned acute care Hospital inpatient readmission.	
	92	Discharged/transferred to a nursing facility certified under Medicaid but not certified under Medicare with a planned acute care Hospital inpatient readmission.	
	93	Discharged/transferred to a psychiatric distinct part unit of a Hospital with a planned acute care Hospital inpatient readmission.	
	94	Discharged/transferred to a critical access Hospital (CAH) with a planned acute care Hospital inpatient readmission.	
	95	Discharged/transferred to another type of health care institution not defined elsewhere in this code list with a planned acute care Hospital inpatient readmission.	
MSDRG	Values are to conform CMS Standard MSDRG Codes (check cms.gov for more information)		
Readmit	Y	Yes	
	N	No	
DNR	Y	Yes	
	N	No	

Financial Class	M	Medicare	Nationwide health insurance program providing health insurance protection to people 65 years of age and over, people entitled to Social Security disability payments for 2 years or more, and people with end-stage renal disease, regardless of income. Examples that roll up to Medicare: Medicare (Managed Care) Medicare HMO, PPO, POS Medicare (Non-Managed Care) Medicare Medical Savings Account (MSA)
	D	Medicaid	Jointly funded cooperative venture between the Federal and State Governments to assist States in the provision of adequate medical care to eligible needy persons.
	G	Other Government	Includes Department of Corrections, Department of Veteran Affairs, CHAMPUS/CHAMPVA, TRICARE
	I	Commercial	Insurance that is not paid through any government source. Usually financed through a combo of employer and employee or individual insurance policies, sold directly to consumer. Types include: Commercial Self-insured ASO plans Medicare supplemental Policies (as second payer) - Medicare supplemental insurance is also known as Medigap insurance. Organized Delivery Systems (ODS) examples include PPOs, PHOs, IPAs.
	S	Self-Pay	Self-pay, No Charge (Charity, Professional Courtesy, Research/Clinic Trial), Refusal to Pay/Bad Debt, Research/Donor, No Payment-Other all roll up to this
	W	Workers' Compensation	Insurance paid for by an employer to help recover from an injury or illness caused by work.
	O	Other	Other
	U	Unknown	Unknown
Guarantor Relationship to Patient	1	Child	
	2	Grandchild	
	3	Grandparent

	9	Spouse	
	10	Stepchild	
	11	Stepparent	
	12	Other	
	13	Unknown	

Table 2.2 Reference File – Facility File

Notes:

If you are submitting more than one system of encounter data, please make sure facility codes are consistent across ALL systems.

Records received from Facility Reference files will update existing rows (based on Facility Code) or add new. Facility reference records can not be deleted without assistance by WebMD Ignite (via a service request).

Column Order	Field	Header Name	Description	Ex.	Required	Standard Values Required
1	Facility Code	facility_code	Code identifying facility of care. It is expected that your provided facilities will support optimal campaign execution and reporting without need for additional collapsing, correction or other hygiene measures.	EMH	Y	

#	Attribute	Field	Description	Example		
2	CCN	ccn	The CMS Certification Number (CCN) which verifies a provider has been Medicare certified, and for what type of services. This number is used in some Medicare billing and is also known as the medicare provider number.	123456		
3	NPI	npi	The National Provider Identifier number the location is registered under.	1007321707		
4	Facility Type	facility_type	The primary type of facility	1		Y
5	Facility Name	facility_name	Full name of the facility.	Enterprise Model Hospital	Y	
6	Address Line 1	address_line_1	First line of street address.	123 Jackson Rd.		
7	Address Line 2	address_line_2	Second line of street address.	Suite 110		
8	City	city	City or town.	Springfield		
9	State	state	Two (2) character US state abbreviation.	MA		
10	Postal Code	postal_code	Postal code (ZIP of ZIP+4 are acceptable).	1103		
11	Phone 1	phone_1	The primary phone number for the facility.	4135551234		
12	Phone 2	phone_2	The secondary phone number for the facility.	4135551234		
13	Phone 3	phone_3	The tertiary phone number for the facility.	4135551234		
14	Fax	fax	The fax number for the facility.	4135551234		
15	URL	url	The Internet address for the facility.	http://www.emh.com		
16	Level 1 Facility Group	facility_group_level_1	The name of the highest-level group to which this facility belongs.	Eastern Connecticut		
17	Level 2 Facility Group	facility_group_level_2	The name of the second-highest-level group to which this facility belongs. This group should be a subset of the Level 1 Facility Group.	New England		
18	Level 3 Facility Group	facility_group_level_3	The name of the third-highest-level (lowest-level) group to which this facility belongs. This group should be a subset of the Level 2 Facility Group.	East Coast Group		

Table 2.3 Standard Data Values – Facility File

Attribute	Value	Value Description
Facility Type	1	Hospital
	2	Skilled Nursing
	3	Home Health
	4	Religious
	5	Intermediate Care
	6	Clinic
	7	Special Facility

Table 2.4 Facility Hierarchy Examples – Facility File

You may provide zero, one, two, or three levels for your facility hierarchy. Populate the fields from left-to-right, leaving the rightmost field(s) blank if you have fewer than three levels in your hierarchy. If you are providing multiple levels, the lowest level should be in the rightmost non-empty facility group field (see "2-Level" and "3-Level" examples below).

Note: You must communicate to the Mercury client services team how many levels your hierarchy contains. Every facility must have a group for each of those levels, or it will not be accepted. If you have not communicated a number-of-levels to the Mercury Healthcare client services team, we will by default expect no hierarchy to be delivered (i.e. all three fields left blank; see "No Hierarchy" example below).

Below are examples of Facility Files for No Hierarchy and for One-, Two-, and Three-Level Hierarchies. Note: To save space, fields 2–4 and 6–15 are omitted and denoted as "…" in these examples.. In an actual Facility File, these fields must be included.

No Hierarchy – Do Not Populate Facility Groups

facility_code	…	facility_name	…	facility_group	facility_gr	facility_gr
AAA	…	Alice's Hospital	…			
BBB	…	Bob's Hospital	…			
CCC	…	Carol's Hospital	…			
DDD	…	Dave's Hospital	…			

One-Level Hierarchy – Populate Level 1 Facility Group

facility_code	…	facility_name	…	facility_group	facility_gr	facility_gr
AAA	…	Alice's Hospital	…	East Group		
BBB	…	Bob's Hospital	…	East Group		
CCC	…	Carol's Hospital	…	East Group		
EEE	…	Erin's Hospital	…	West Group		
FFF	…	Fran's Hospital	…	West Group		
GGG	…	Greg's Hospital	…	West Group		

Two-Level Hierarchy – Populate Level 1 & Level 2 Facility Groups

facility_code	…	facility_name	…	facility_group	facility_gr	facility_gr
AAA	…	Alice's Hospital	…	East Group	Southeast	
BBB	…	Bob's Hospital	…	East Group	Southeast	
CCC	…	Carol's Hospital	…	East Group	Midwest	
EEE	…	Erin's Hospital	…	West Group	Southwest	
FFF	…	Fran's Hospital	…	West Group	Pacific	
GGG	…	Greg's Hospital	…	West Group	Pacific	

Three-Level Hierarchy – Populate Level 1, Level 2, & Level 3 Facility Groups

facility_code	…	facility_name	…	facility_group	facility_gr	facility_gr
AAA	…	Alice's Hospital	…	East Group	Southeast	South
BBB	…	Bob's Hospital	…	East Group	Southeast	Georgia
CCC	…	Carol's Hospital	…	East Group	Midwest	Illinois
EEE	…	Erin's Hospital	…	West Group	Southwest	Arizona
FFF	…	Fran's Hospital	…	West Group	Pacific	SoCal
GGG	…	Greg's Hospital	…	West Group	Pacific	NorCal

Table 2.5 Facility Hierarchy Edge Cases – Facility File

Edge Case 1: You have two lower-level groups with the same name.

You are permitted to use the same name for two different lower-level groups. Using sports leagues as an analogy: In the National Football League, the NFC East and the AFC East are different Divisions, even though they are both called "East".

facility_code	…	facility_name	…	facility_group	facility_gr	facility_gr
NYG	…	New York Giants	…	NFL	NFC	East
PHI	…	Philadelphia Eagles	…	NFL	NFC	East
DAL	…	Dallas Cowboys	…	NFL	NFC	East
NYJ	…	New York Jets	…	NFL	AFC	East

MIA	...	Miami Dolphins	...	NFL	AFC	East

This is a valid way to build your facility hierarchy: NFL >> NFC >> East and NFL >> AFC >> East will display as distinct segments in reports and filtering.

Edge Case 2: You have facilities that do not fit into your hierarchy.

If you are providing a facility hierarchy, then every facility in your facility reference file must have a facility group specified at every level you have established.

If you have a facility that does not conceptually fit into your hierarchy --- for instance, if the facility was just acquired and you have not yet assigned it to a division --- you'll need to implement a simple work-around: create a group called "Unassigned", and assign the orphaned facility to the "Unassigned" group.

For instance, in this example, a health system has just added a new hospital in San Juan: its first in Puerto Rico. They're not sure whether they want to include Puerto Rico in their Southeast Division, or if they should maybe create a new division. For now, they decide to just put the new hospital in Unassigned Division:

facility_code	...	facility_name	...	facility_group	facility_gr	facility_gr
AAA	...	Jacksonville	...	Southeast		
CCC	...	Atlanta Hospital	...	Southeast		
EEE	...	Boston Hospital	...	Northeast		
FFF	...	Burlington Hospital	...	Northeast		
GGG	**...**	**San Juan Hospital**	**...**	**Unassigned**		

If your hierarchy has multiple levels, you may need to create multiple unassigned groups. For example, this health system has two levels, a Market and a Division. They have two new hospitals: San Juan Hospital and Tampa Bay Hospital.

1. They do not yet have an appropriate division for San Juan Hospital and would like to leave it in Unassigned Division for now. They set the market to Unsassigned Market as well.
2. They're not sure whether Tampa Bay
3. Hospital will be added to the N. Florida Market or the S. Florida Market. For now, they'll simply list it as Unassigned Market --- in the Southeast Division.

facility_code	...	facility_name	...	facility_group	facility_gr	facility_gr
AAA	...	Jacksonville	...	Southeast	N. Florida	
BBB		Tallahassee Hospital		Southeast	N. Florida	
CCC	...	Miami Hospital	...	Southeast	S. Florida	
DDD	**...**	**Tampa Bay Hospital**	**...**	**Southeast**	**Unassigne**	
EEE	...	Atlanta Hospital	...	Southeast	Georgia	
FFF	...	Savannah Hospital	...	Southeast	Georgia	
GGG	**...**	**San Juan Hospital**	**...**	**Unassigned**	**Unassigne**	

Edge Case 3: You have facilities that are not listed in your Facility Reference File.

This is not recommended. If you have encounters at a given facility, that facility should be included in your Facility Reference File. If you have facilities that do not fit into your hierarchy, you should still include them in your Reference File using the work-around described in Edge Case 2.

If you do have facilities in your encounter data that are not listed in your Facility Reference File, the unlisted facilities will appear in a top-level group labeled "Other".

Edge Case 4: You have encounters that do not have a facility code.

Facility code is not a required field on the encounter file. However, if you intend to use facilities for audience filtering and campaign objectives, we highly recommend you include a facility code. Filters that use facilities or facility groups will exclude encounters that do not have a facility code.

Table 3. Financial File

Notes:

General Requirements:							
	Visit ID must be unique						
	No null values are expected						
	If multiple records are sent for the same visit_ID they are not summed. Only one record should be sent per visit_ID.						
Total Charges:							
	Provided at the visit/encounter level						
	Values are expected to be positive						
	No account adjustments, capitations, or write-offs included						
	Records with a null or a value that is not a number will get rejected						
Total Payments:							
	Provided at the visit/encounter level						
	All payments received for the visit/encounter, summed						
	Values are expected to be positive						
	No account adjustments or write-offs included						
Expected Reimbursements:							
	Provided at the visit level						
	Typically modeled						
	Values are expected to be positive						
Direct Variable Costs:							
	Provided at the visit level						
	Cost of a visit above and beyond the routine operating expenses						
	Values are expected to be positive						

Column Order	Field	Header Name	Description	Example	Required	Standard	Impact Statement
1	Visit ID	visit_id	Must be the same Visit ID used in the Visit	123454321	Y		Required for all visits. Used to link related files
2	Total Charges	total_charges	The total charges billed for the visit in	5222.89	Y		Required for campaign and other reporting.
3	Total Payments	total_payments	Total amount received (aka total	1412			Required for actual contribution margin
4	Expected Reimbursement	expected_reimburs	Expected payment for the visit. This is	1400			Required for expected contribution margin
5	Total Direct Costs	total_direct_costs	Direct costs (sometimes called variable	501.37			Required for all contribution margin reporting.

Table 3.1 Reference File: Expected Reimbursement Rate Schedule

Rate Schedule uses MH standard drivers							
	payor category						
	service category						
	inpatient/outpatient visit type						
Send Rate Schedule with each update							
Partial updates are not supported							
Rate schedules are re-calculated on a monthly basis							
Drivers used are MH standard values							
	Payor Category, Service Category, Inpatient/Outpatient visit type						
	All combinations should be represented, if any are missing in the schedule, encounters with those combinations will NOT receive expected reimbursement values						
Any expected reimbursement data present in the encounter data will remain in place and will not be zeroed out for unrepresented grain key values							

Column Order	Field	Header_Name	Description	Example	Standard Values Required		
1	Service Category Code	service_category_code	The service category code for the rate schedule entry. Values must conform to Mercury standard values.	5	Y		
2	Payor Category Code	payor_category_code	The payor category code for the rate schedule entry. Values must conform to Mercury standard values.	M	Y		
3	Patient Class Code	patient_class_code	The patient class code for the rate schedule entry.	I	Y		
4	Expected Reimbursement Rate	expected_reimbursement_rate	The percentage of total charges expected to be reimbursed for a given payor, service category and inpatient–outpatient classification. Should be a decimal number between 0 and 1	0.353			

Table 3.2 Standard Data Values – Expected Reimbursement Rate Schedule

Attribute	Value	Value Description

	E	Emergency

Table 4. Diagnosis File

Note: Diagnosis Codes are ranked using an included ranking field or sequentially as included in the file.

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Visit ID	visit_id	Must be the same Visit ID used in the Visit file. Will be used to associate diagnoses to the same master encounter (visit).	123454321	Y		Required for all visits. Used to link related files (visit, diagnosis, etc.) and match against previously-supplied records.
2	Diagnosis code	diagnosis_code	A visit will normally contain one or more diagnoses. See Accepted Data Values tab for more direction on acceptable values. Include the decimal as well as any leading or trailing zeros.	Z79.01	Y	Y	Critical for campaign execution and predictive models. Important for identifying service category of outpatient service visits.
3	Diagnosis code type	diagnosis_code_type	The ICD code standard of the associated diagnosis code. Acceptable values are ICD-10 or ICD-9.	ICD-10	Y	Y	Required to load diagnosis.
4	Priority rank	priority_rank	The priority of the diagnosis within the encounter.	1			Critical for accurate reporting, service category assignment and predictive models.
5	Present on Admission Indicator	present_on_admission_ind	Indicates if the diagnosis (condition) was present when the patient was admitted.	Y		Y	Useful for quality measures.

Table 4.1 Standard Data Values – Diagnosis File

Attribute	Value	Value Description
Diagnosis Code	**Values are to conform to CMS ICD standards (check cms.gov for more information on ICD-10)**	
Diagnosis Code Type	ICD-9	ICD-9-CM
	ICD-10	ICD-10-CM
Present on Admission Indicator	Y	Present upon
	N	Not present upon
	U	Insufficient
	W	Clinically
	1	Unreported, exempt

Table 5. Procedure File

Note: Procedure Codes are ranked using an included ranking field, sequentially as included in the file, or in descending value using the Procedure Charge field.

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Visit ID	visit_id	Must be the same Visit ID used in the Visit file. Will be used to associate procedures to the same master encounter (visit).	123454321	Y		Required for all visits. Used to link related files (visit, diagnosis, etc.) and match against previously-supplied records.
2	Procedure Code	procedure_code	A visit will normally contain one or more procedures. See Accepted Data Values tab for more direction on acceptable values. Include the decimal as well as any leading or trailing zeros.	99213	Y	Y	Critical for campaigns and predictive models. Useful in very specific response tracking. Also important in identifying service category of outpatient service visits.
3	Procedure Code Type	procedure_code_type	The code standard of the associated procedure code. Acceptable values are ICD-10, ICD-9, CPT and HCPCS.	CPT	Y	Y	Required to load procedure.
4	Procedure Modifier	procedure_modifier	CPT-I, CPT-II and HCPCS codes often contain a modifier following the primary code indicating additional information	8P		Y	Helpful to provide additional information about the procedure.

							Standard Values Required	
5	Procedure Charge Amount	proc_charge_amount	The charge associated with that particular procedure. Values must be positive.	1222.89				Useful for ranking procedures when a priority rank is unavailable.
6	Priority Rank	priority_rank	The priority of the procedure (first, second, third).	2				Critical for accurate reporting, service category assignment and predictive models.
7	Procedure Date	procedure_date	The date the procedure was performed. YYYY-MM-DD	2012-03-21				
8	Provider Code	provider_code	The client-specific internal system identifier used to uniquely identify the provider who performed the procedure.	P12345				Useful for reporting procedure volumes by provider.
9	Provider Name	provider_name	The full name of the provider who conducted the procedure.	Ellen Jean Wilson				Useful for provider mastering.
10	Provider NPI	provider_npi	Unique National Provider Identifier (NPI) for the provider who performed the procedure.	1124083894				Useful for provider mastering.

Table 5.1 Standard Data Values – Procedure File

Attribute	Value	Value Description
Procedure Code	**Values are to conform to CMS ICD standards (see cms.gov for more information on ICD-10) or**	
	Values are to conform to AMA CPT standards or	
	Values are to conform to CMS HCPCS standards	
Procedure Code Type	ICD-10	ICD-10–PCS Procedural Standard
	ICD-9	ICD-9–PCS Procedural Standard
	CPT	AMA Current Procedural Terminology (CPT) Standard
	HCPCS	CMS HCPCS Procedural Standard
Procedure Modifier	Values are to conform to AMA CPT modifier standards.	

Table 6. Provider File

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Visit ID	visit_id	Must be the same Visit ID used in the Visit file. Will be used to associate providers to the same master encounter (visit).	123454321	Y		Required for all visits. Used to link related files (visit, diagnosis, etc.) and match against previously-supplied records.
2	Provider Code	provider_code	The client-specific internal system identifier used to uniquely identify the provider.	P12345			Useful for identifying the provider in a source system.
3	Provider Name	provider_name	The full name of the provider.	Jean Ellen Wilson			Useful for provider mastering.
4	Provider First Name	provider_first_name	The first name of the provider.	Jean	Y		Required for provider mastering.
5	Provider Last Name	provider_last_name	The last name of the provider.	Wilson	Y		Required for provider mastering.
6	Provider Middle Name	provider_middle_name	The middle name of the provider.	Ellen			Useful for provider mastering.
7	Provider NPI	provider_npi	Unique National Provider Identifier (NPI) for the provider.	1124083894	Y		Required for provider mastering.
8	Provider Primary Specialty Code	prov_primary_specialty_code	The code representing a provider's primary specialty.	PS412		Y	Important for keeping two providers with the same name separate and/or confirming two provider records should be matched between disparate systems. Also used in many predictive models.
9	Provider Primary Specialty Description	prov_primary_specialty_desc	The provider's primary medical specialty or occupation.	Internal Medicine		Y	Important for keeping two providers with the same name separate and/or confirming two provider records should be matched between disparate systems. Also used in many predictive models.

10	Provider Role Code	provider_role_code	The code representing a provider's role.	AT		Y	Required to load record so the provider is properly attributed to their role in the encounter.
11	Provider Role Description	provider_role_desc	A role which indicates what function the provider had in the visit. Common values include Attending/Rendering, Primary, Admitting, Referring.	Attending/Rendering		Y	Vital to track the relationship of the physician to the patient during the episode of care.

Table 6.1 Standard Data Values – Provider File

Attribute	Value	Value Description	Details
Provider Role	AT	Attending/Renderin	Meant to be the provider giving the majority of care, typically called attending for inpatients and rendering for outpatient or
	AD	Admitting	Admitting provider. Should only exist for inpatient visits.
	RP	Referring	Referring provider
	CP	Consulting	Consulting provider.
	PP	Primary	Primary care provider indicated by the patient.
	OR	Ordering	Provider who orders item or service
	OT	Other	Other
Provider Primary Specialty	PS001	Abdominal Radiology	
	PS1225	Academic Medicine	
	PS1171	Acupressure	
	PS004	Acupuncture	
	PS1172	Acute Care Medicine	
	PS005	Acute Care Nursing (Clinical Nurse Specialist)	
	PS006	Acute Care Nursing (Nurse Practitioner)	
	PS1056	Acute Care Surgery	
	PS1057	Acute Pain Medicine	
	PS916	Addiction and Substance Abuse Counseling	
	PS008	Addiction Medicine	
	PS010	Addiction Medicine Anesthesiology	
	PS009	Addiction Medicine Nursing (Nurse Practitioner)	
	PS011	Addiction Nursing	
	PS012	Addiction Psychiatry	
	PS013	Addiction Psychology	
	PS1144	ADHD Parent Coaching	
	PS014	Administration	
	PS1263	Adolescent Medicine (Physician Assistant)	
	PS028	Adult Cardiothoracic Anesthesiology	
	PS1190	Adult Congenital Heart Disease Cardiology	
	PS029	Adult Development & Aging Psychology	
	PS030	Adult Health Nursing (Clinical Nurse Specialist)	
	PS031	Adult Health Nursing (Nurse Practitioner)	
	PS033	Adult Medicine	
	PS1264	Adult Medicine (Nurse Practitioner)	
	PS1265	Adult Medicine (Physician Assistant)	
	PS038	Adult Psychiatry	
	PS042	Advanced Heart Failure & Transplant Cardiology	
	PS047	Aerospace Medicine	
	PS1153	Age Management Medicine	
	PS050	Allergy	

PS051	Allergy & Asthma
PS052	Allergy & Immunology
PS1266	Allergy & Immunology (Nurse Practitioner)
PS1267	Allergy & Immunology (Physician Assistant)
PS053	Alternative Care
PS1113	Alternative Medicine
PS055	Ambulatory Care Nursing
PS054	Ambulatory Medicine
PS057	Anaplastology
PS994	Anatomic & Clinical Pathology
PS058	Anatomic Neurologic Pathology
PS059	Anatomic Pathology
PS060	Anatomic Pathology & Laboratory Medicine
PS062	Anatomy & Physiology
PS065	Anesthesiology
PS064	Anesthesiology (Anesthesiology Assistant)
PS1246	Anesthesiology (Physician Assistant)
PS068	Angiography
PS070	Anterior Segment Ophthalmology
PS071	Anterior Segment Surgery
PS072	Anxiety Disorders
PS1135	Applied Clinical Nutrition
PS1119	Applied Kinesiology
PS074	Art Therapy
PS985	Assisted Living
PS079	Assistive Therapy
PS080	Athletic Training
PS081	Attendant Care
PS085	Audiology
PS083	Audiology (Audiology Assistant)
PS084	Audiology Technology
PS1101	Augmentative and Alternative Communication
PS1318	Autoimmune Diseases
PS086	Axon Transplant Research
PS1173	Ayurvedic
PS088	Bariatric Medicine
PS089	Bariatric Surgery
PS090	Behavior Analysis
PS091	Behavior Neurology & Neuropsychiatry
PS1064	Behavioral Medicine
PS1214	Behavioral Nutrition Counseling
PS1163	Behavioral Sleep Medicine
PS1137	Behavioral Therapy
PS094	Biochemistry
PS1122	Biofeedback
PS095	Biological Chemistry
PS096	Biological Mechanics

PS099	Biomedical Engineering
PS100	Biomedical Photography
PS101	Biophysics Physiology
PS102	Biostatistics
PS1065	Bisexual and Transgender Gynecology
PS1322	Blood & Marrow Transplant
PS104	Blood Banking and Transfusion Medicine
PS107	Body Imaging
PS108	Bone & Joint Non-Surgical Orthopedics
PS109	Bone Densitometry
PS998	Brain Aneurysms
PS111	Brain Injury Medicine
PS113	Brain Injury Psychiatry
PS116	Breast Oncology
PS115	Breast Radiology
PS1029	Breast Reconstruction Surgery
PS117	Breast Surgery
PS118	Breast Surgical Oncology
PS1030	Burn Care
PS120	Burn Surgery
PS121	Cancer Immunology
PS122	Cancer Pathology
PS123	Cancer Research
PS124	Cardiac & Pulmonary Radiology
PS125	Cardiac Rehabilitation Nursing
PS126	Cardiac Surgery
PS1218	Cardio-Oncology
PS127	Cardiology
PS1237	Cardiology (Nurse Practitioner)
PS1268	Cardiology (Physician Assistant)
PS1343	Cardiology Echocardiography
PS129	Cardiopulmonary Physical Therapy
PS130	Cardiothoracic Anesthesiology
PS131	Cardiothoracic Radiology
PS132	Cardiothoracic Surgery
PS1269	Cardiothoracic Surgery (Physician Assistant)
PS134	Cardiovascular & Metabolic Diseases
PS135	Cardiovascular & Pulmonary Diseases
PS138	Cardiovascular Interventional Technology
PS139	Cardiovascular Invasive Technology
PS140	Cardiovascular Nuclear Radiology
PS141	Cardiovascular Pathology
PS137	Cardiovascular Radiology
PS1007	Cardiovascular Surgery
PS142	Cardiovascular Technology
PS143	Case Management
PS144	Case Management Nursing

PS145	Cataract Surgery
PS146	Cell Immunology
PS147	Cellular Molecular Biology
PS149	Cerebrovascular Disorders
PS1031	Cerebrovascular Neurosurgery
PS150	Cerebrovascular Research
PS151	Chemical Pathology
PS018	Child & Adolescent Allergy
PS663	Child & Adolescent Open Heart Surgery
PS019	Child & Adolescent Psychiatry
PS1270	Child & Adolescent Psychiatry (Nurse Practitioner)
PS156	Child Abuse Pediatrics
PS1066	Chinese Herbal Medicine
PS158	Chiropractic
PS159	Chiropractic Nutrition
PS160	Chiropractic Occupational Medicine
PS161	Chiropractic Rehabilitation
PS1121	Chiropractic Spinal Decompression Therapy
PS162	Chiropractic Sports Medicine
PS1098	Christian Counseling
PS163	Chronic Care Nursing
PS1189	Civil Surgeon

Table 7. Payor File

Column Order	Field	Header Name	Description	Example	Required	Standard Values Required	Impact Statement
1	Visit ID	visit_id	Must be the same Visit ID used in the Visit file. Will be used to associate payor to the same master encounter (visit).	123454321	Y		Required for all visits. Used to link related files (visit, diagnosis, etc.) and match against previously-supplied records.
2	Payor code	payor_code	The code representing a payor.	BC	Y		Useful for some campaign execution and reporting.
3	Payor Name	payor_name	The name of the insurance for the patient (or self-pay).	Blue Cross	Y		Useful for some campaign execution and reporting.
4	Priority rank	priority_rank	The priority of the payor; for example, an HMO might have priority 1 and self-pay priority 2.	1			Important for accurate reporting by payor. Primary payor (rank 1) is most generally used in reporting.
